Fall 2014 - Biological Sciences Proposed Course Offerings*

BIOL 1010	**A**	Cellular Basis of Life
BIOL 1020	A	Diversity of Life
BIOL 2000	A	Principles of Genetics
BIOL 2200	A	Principles of Ecology
BIOL 2850	A	Human Genetics
BIOL 3000	A	Gene Expression and Regulation
BIOL 3105	A	Signal Transduction
BIOL 3210	A	Experimental Methods in Molecular and Cellular Biology
BIOL 3420	A	Animal Physiology
BIOL 3605	A	Conservation Biology
BIOL 3630	A	Field Biology
BIOL 3700	A	Ecosystem and Community Ecology
BIOL 3710	A	Population Biology
BIOL 4110	A	Advances in Genetics, Molecular & Cellular
BIOL 4560	A	Plant Development
BIOL 4700	A	Molecular Ecology
BIOL 4850	A	Behavioural Ecology
BIOL 5500	A	Advances in Biological Sciences
Biol 7500	A	Advances in Biological Sciences
Envs 4000	A	River Science

Spring 2015 - Biological Sciences Proposed Course Offerings*

BIOL 1010	A	Cellular Basis of Life
BIOL 1020	A	Diversity of Life
BIOL 2000	A	Principles of Genetics
BIOL 3000	A	Gene Expression and Regulation
BIOL 3105	A	Signal Transduction
BIOL 3115	A	Principles of Cell Growth
BIOL 3300	A	Evolution
BIOL 3310	A	Developmental Biology
BIOL 3400	A	Principles of Microbiology
BIOL 3460	A	Plant Physiology
BIOL 3520	A	Invertebrate Zoology
BIOL 3610	A	Prairie Conservation
BIOL 3800	A	Aquatic Ecosystems
BIOL 4200	A	Techniques in Molecular Biology
BIOL 4420	A	Environmental Physiology
BIOL 4500	A	Seminars in Biological Sciences
BIOL 4710	A	Evolutionary and Econological Modelling
ENVS 2000	A	Fundamentals of Environmental Science

*Course offerings may change prior to registration for Fall 2014/Spring 2015 semesters.
Course offerings will not be finalized for 2014/15 for several months.
