

Page 1, 3D Pop-Up Card (Illustrated directions for page 2)

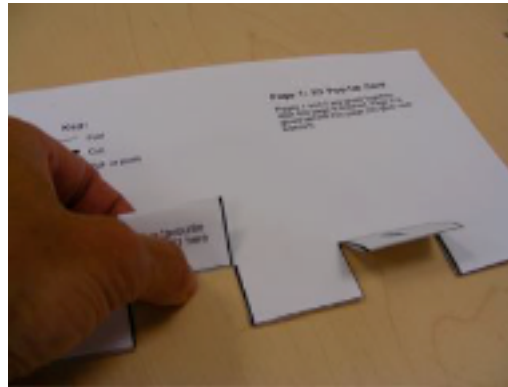

1) Fold page 2 along the fold line, with the writing showing.

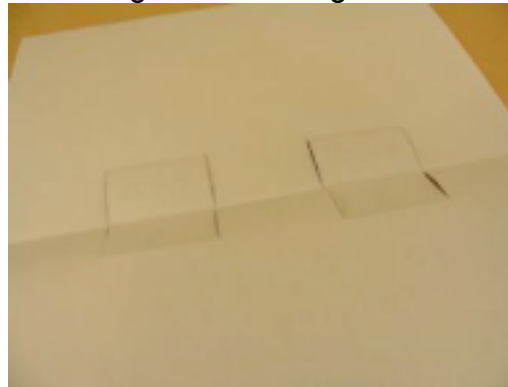

2) Cut out the pop-up boxes on page 2.

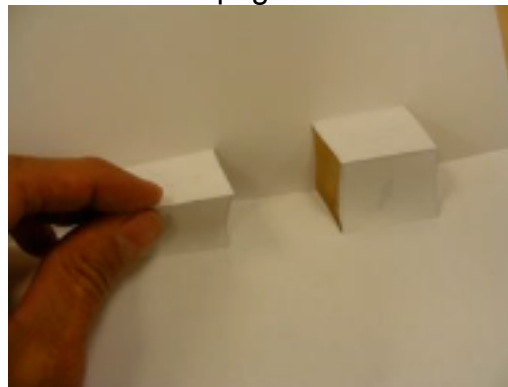

3) Fold and crease the boxes along the fold lines.

4) Unfold page 2, and turn it over, so the writing is not showing.

5) Push the boxes out, so they stick out the front of page 2.

6) Draw 2 “things” of your choice on a blank sheet of paper, about 3 cm wide and 3 cm tall.

7) Glue each “thing” on one side of each pop-up box, so you have 2 “things” that pop up when you hold the page sideways

Ideas:

1) You can glue a page behind page 2, so your card looks neater (No glue near pop-up boxes!).

2) Name and decorate the rest of your pop-up card.

3) Make a card with only one big pop-up box on it.

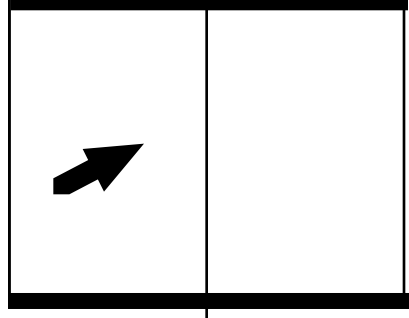

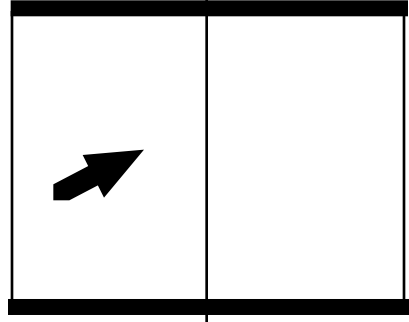

Page 2, Pop-Up 3D Card

Directions:

NOTE:

If you have trouble with these directions, there are illustrated directions for each step, below, on page 1.

- 1) Fold this page along the fold line, with the writing showing.
- 2) Cut out the pop-up boxes on this page.
- 3) Fold and crease the boxes along the fold lines.
- 4) Unfold this page, and turn it over, so the writing is not showing.
- 5) Push the boxes out, so they stick out the front of this page.
- 6) Draw 2 “things” of your choice on a blank sheet of paper, about 3 cm wide and 3 cm tall.
- 7) Glue each “thing” on one side of each pop-up box, so you have 2 “things” that pop up when you hold the page sideways

Ideas:

- 1) You can glue a page behind this page, so your card looks neater (No glue near pop-up boxes!).
- 2) Name and decorate the rest of your pop-up card.
- 3) Make a card with only one big pop-up box on it.
