## Study Resources

Studying is something that all students are expected to do, yet very few are ever shown how to do it effectively. Many students think studying involves simply reviewing their notes again and again. In fact, reading and rereading your notes leads to recognition, not understanding or knowing. You need to get actively involved with the information that you are studying. Manipulating the information that you are trying to study by doing things like review questions, making diagrams, or concept mapping will not only help you to learn the information much better, it'll be a whole lot more interesting as well.

### Learning Strategist / Study Skills Services

The Learning Strategist office at the U of L can provide you with suggestions and best practices for improving your grades through better note taking, exam taking and preparation, time management and other academic strategies and assistance that can be applied to all courses in all disciplines.

You can access learning strategies and study skills support by scheduling a free, confidential, one-on-one appointment with a learning strategist at the Student Success Centre. Calgary Campus students can access these services via meetings online or by phone. To book an appointment, go to <http://www.uleth.ca/study-skills-services/appointments>.

Phone: (403) 332-4667

# Tutoring Resources

## Tutoring Services

You can request tutoring through the Lethbridge campus and will be matched with a tutor who is also based in Calgary. You are encouraged to contact Tutoring Services to request assistance with a specific course either prior to the start of the semester or during the first few weeks of the term.

Free tutoring is also available for 1st and 2nd year courses and can be arranged through the Student Success Centre. Check out <http://www.uleth.ca/tutoring-services/>.

Phone: (403) 332-4668

Email: [tutoring.services@uleth.ca](mailto:tutoring.services@uleth.ca)

## eTutor Alberta

eTutor Alberta is an online tutoring service available to students from many universities and colleges in Alberta, including the U of L. U of L Calgary Campus students who wish to use these services need to visit the eTutor website and follow the steps to create an account. Check out <http://www.etutoralberta.ca/>.

Turnaround time is 24 – 48 hours for both writing critique and mathematics assistance. (Note: The turnaround time might take longer during the peak periods of the semester).

eTutor Alberta can help with:

### Writing:

During the school year a student can submit term papers and other written reports for critiquing. Students can submit the same paper / report to eTutor up to three times.

### Mathematics:

eTutors can help with your math problems. Submit a question for feedback or drop into an online classroom to meet with a tutor in real time.
