

EXPERIENCE

THE U OF L RESIDENCE ADVANTAGE

1 Succeed Academically

You are here to earn a degree. Research indicates students who live in residence are more likely to graduate than those who live off campus. With a strong history of proven success, our students have an immediate advantage in their program.

2 Be at the Centre of it all

Residence students are closer to everything as they are the heart of campus. You are closer to classmates, restaurants, professors' offices, recreational facilities and beautiful parks and grounds.

3 Forge Friendships

Build lifelong friendships, foster relationships and explore networking opportunities. Our inclusive spaces bring folks together from diverse backgrounds, creating rich opportunities for meaningful connections.

4 Be Engaged

The Organization of Residence Students (ORS) provides support, builds community, eases transitions and plans fun activities with a wide appeal. All residents are members of the ORS, the largest student club and support network on campus. This also means experienced, connected and supportive student leaders live just down the hall.

5 Access Resources

When you live on campus, dozens of dedicated Student Services are right at your door step. The Health Centre, Academic Advising, Scholarships and Student Finance and more are all within walking distance!

6 Designed for You

Residence students have access to indoor and outdoor fitness areas, fire pits, lounges, movie rooms, study spaces, games rooms and much more, all located within our residence facilities and spaces.

7 Earn Scholarships

Residence students can apply for a growing list of awards and bursaries available exclusively to our on-campus students. These awards vary in nature from leadership, to community involvement, to academic achievement.

8 Be a Leader

Supplement your academics and build your resume with leadership opportunities and practical experience. Become a Residence Mentor, be a voice at ORS Council or create community as a Residence Assistant.

9 Experience Community

Community living brings social supports that enhance academic performance and define the student experience. The bonds formed in residence are an important foundation in university success.

10 Learn Beyond the Classroom

Experience the added benefits of free information sessions, valuable student workshops and academic study spaces available exclusively for residence students.
