$\qquad$

Current and past Program Planning Guides are available on the UofL website at www.uleth.ca/ross/ppgs/ppg.html

Calendar Year: 2011/2012
Faculty: Arts \& Science

## About the <br> Multidisciplinary Major in Neuroscience

## Co-operative Education

The Faculty of Arts and Science offers instruction leading to a Bachelor of Science with a multidisciplinary major in Neuroscience. The program provides background for a diverse range of post-graduate activities and is a popular area of study for students who wish to gain entry into graduate programs in Medicine, Dentistry, and other professional programs related to medical science. Core courses are offered by the Departments of Neuroscience and Psychology but the major also draws on both science and arts courses from across the Faculty.

A Co-op option, requiring three work terms, is available. Students interested in the Cooperative Education/Internship program should contact the Coordinator of Co-operative Education in the Career Resources Centre (AH154 I phone: 403-382-7154) for further information

Several university-level science courses have high school-level courses as recommended background or prerequisites. Students are advised to complete recommended background courses before registering in the university-level course; students must have successfully completed prerequisites before they may register in the university-level course. Students pursuing a Neuroscience major should note the following recommended/required high school courses.

| UofL Science course |  | High School course |
| :---: | :---: | :---: |
| Biology | 1010 | Biology 30 and Chemistry $30 * *$ |
|  | 1020 | Recommended: Biology 30 |
|  | 2000 | Mathematics 30-1 or Pure Mathematics 30* (and Biology 1010 and Biology 1020) |
| Chemistry | 1000 | Chemistry 30** and Mathematics 30-1 or Pure Mathematics 30* |
|  |  | Recommended: Mathematics 31 and Physics 30 |
|  | 1110 | Recommended: Chemistry 30** and Mathematics 30-1 or Pure |
|  |  | Mathematics 30* |
| Mathematics | 1410 | Mathematics 30-1 or Pure Mathematics $30 *$ |
|  | 1560 | Mathematics 30-1 or Pure Mathematics $30 *$ |
|  |  | Recommended: : Mathematics 31 and a blended grade of at least 75\% |
|  |  | in Mathematics 30-1 or Pure Mathematics 30* |
| Physics | 1000 | Physics 30, and Mathematics 30-1 or Pure Mathematics 30* |
|  | 1050 | Mathematics 30-1 or Pure Mathematics 30 * |
|  |  | Recommended: One course in the physical sciences at the 20 level |
|  |  | above |
| Statistics | 1770 | Mathematics 30-1, Mathematics 30-2, or Pure Mathematics 30* |
| *Instead of Mathematics 30-1, Mathematics 30-2, or Pure Mathematics 30, students may use UofL's Mathematics 0500, or both Applied Mathematics 30 and a minimum grade of 75\% in Athabasca University's Mathematics 101. |  |  |
| ${ }^{* *}$ Instead of Chemistry 30, students may use Uofl's Chemistry 0500. |  |  |

The B.Sc. degree with a multidisciplinary major in Neuroscience requires 40 semester courses,
including 22 courses in the major.

Remember that you may use both University of Lethbridge credit and credit transferred from another college or university to meet degree and major requirements. Transfer credit may be either specified or unspecified. Specified credit is indicated on your transcript by the subject name and the specific number of the course, e.g., Biology 1010, Chemistry 2500 . Unspecified credit (1XXX, 2XXX, etc.) is indicated by the subject name and level of the course in parentheses, e.g., Biology ( 1000 level), Chemistry ( 2000 level), etc.
$\qquad$

## Program Requirements

## Transfer Credit

## Unspecified Course Credit

Unspecified course credit means that the University of Lethbridge does not offer the same course you transferred in, but we recognize it and treat it as a regular course. An unspecified course would count as one of your maximum of 20 from one department, but it could not meet a specific course requirement. For example, if Biology 2000 is required in your program, you could not use Biology ( 2000 level) to fulfill that requirement. Students with unspecified transfer credit need to consult an Academic Advisor to establish how the transfer credit fits in the degree program. This should be done as soon as possible after transfer credit is awarded.

## Program Worksheet

Name: $\qquad$ ID: $\qquad$

## Required courses:

$\qquad$ 1. Biology 1010 - Cellular Basis of Life
2. Biology 1020 - Diversity of Life
3. Biology 2000 - Principles of Genetics

4-6. THREE of:
$\qquad$ Biochemistry 2000 - Introductory Biochemistry
Biology 3000 - Gene Expression and Regulation
Biology 3105 - Signal Transduction
Biology 3310 - Developmental Biology
Biology 3400 - Principles of Microbiology
Neuroscience 3625 - Cellular and Molecular Neurobiology
$\qquad$ 7. ONE of:
__ Philosophy 2220 - Philosophy of Mind
Philosophy 2233 - Philosophy and the World View of Science: Earth and Life Sciences
*Philosophy 3270 - Theory of Knowledge
*Philosophy 3402 - Biomedical Ethics
8. ONE of:
__ Physics 1000 - Introduction to Physics I
__ Physics 1050 - Introduction to Biophysics
$\qquad$ 9. Neuroscience 2600 - Brain and Behaviour
10. Neuroscience 3600 - Fundamental Neurobiology
11. Psychology 2320 - Cognition and Perception: Thinking and Seeing
12. Psychology 2700 - Behaviour and Evolution
13. ONE of:
_ Neuroscience 4630 - Neuroscience (Series)
Neuroscience 4980 - Applied Studies
Neuroscience 4990 - Independent Study
${ }^{* *}$ Neuroscience 4995 - Undergraduate Thesis
$\qquad$ 14-15. Any two courses in Neuroscience or Psychology at the 3000 or 4000 level with a Science designation (see the 2011/ 2012 Calendar, Part 7, Section 20 - Divisional Course Designation, p. 110 and List III: Science Courses, p. 87).
1.
2. $\qquad$
16. ONE of the following:
_ One course (3.0 credit hours) in English (at the 1000 level or higher) Writing 1000 - Introduction to Academic Writing
17. ONE of the following:
$\qquad$ Psychology 2030 - Methods and Statistics
Statistics 1770 - Introduction to Probability and Statistics
18-22. ONE of the following groups (a or b):
$\qquad$ a.

| Biochemistry 2000 - Introductory Biochemistry |
| :--- |
| Chemistry 1110 - Chemistry for Life Sciences I |
| Chemistry 2120 - Chemistry for Life Sciences II |
| Two additional courses in Biology, Chemistry, Neuroscience, or Psychology at the 3000 or 4000 level |
| with a Science designation (see the 2011/2012 Calendar, Section 20. Divisional |
| Course Designation, p. 110 and List III: Science Courses, p. 87) |

Note: Students who choose this grouping may not choose Biochemistry 2000 as part of the "Three of" list above.
OR
b.

> | Chemistry 1000 - General Chemistry I |
| :--- |
| Chemistry 2000 - General Chemistry II |
| Chemistry 2500 - Organic Chemistry I |
| Chemistry 2600 - Organic Chemistry II |
| ONE of: |
| $\quad$ Mathematics 1410 - Elementary Linear Algebra |
| $\quad$ Mathematics 1560 - Calculus I |

*Prerequisite required: One of Philosophy 1000 or a 2000-level course (3.0 credit hours) in Philosophy.
${ }^{* *}$ If Neuroscience 4995 ( 6.0 credit hours) is chosen, the requirement for two additional courses at the 3000 or 4000 level in Neuroscience or Psychology with a Science designation is reduced to one additional such course.

## Recommended courses include:

Biology 3005 - Genome Maintenance
Biology 3115 - Principles of Cell Growth
*Biology 3210 - Experimental Methods in Molecular and Cellular Biology
Biology 3420 - Animal Physiology
** Biology 4110 - Advances in Genetics, Molecular and Cellular Biology
Computer Science 1000 - Introduction to Computer Science
Drama 2350 - Speech Communication
Logic 1000 - Critical Thinking
*** Logic 2003 - Symbolic Logic I
Management 3020 - Marketing
Neuroscience 3705 - Evolution of Brain and Behaviour
Psychology 3360 - Sensation and Perception
*Has prerequisite: Chemistry 2000.
${ }^{* *}$ Has prerequisite: One of Biology 3000 or Biology 3005; One of Biology 3105 or Biology 3115.
${ }^{* * *}$ Logic 2003 is recommended background for Philosophy 3270.
It is strongly recommended that students who are planning to pursue graduate studies in the neurosciences consider the undergraduate thesis option and include the following courses in their program:

Neuroscience 3605 - Research Methods in Neuroscience
Psychology 3400 - Advanced Research Design and Data Analysis

## Sample Sequencing Plan

Shown below is a sample sequence of courses for your degree. If you follow this plan, you should be able to graduate in four years, provided you complete five courses per semester. This is just one example of how you could complete your major and degree requirements; you may find that a different sequence works as well as this one.

| Year 1, Fall | Year 1, Spring |
| :---: | :---: |
| Biology 1010 | Biology 1020 |
| Chemistry 1000 or | Chemistry 2000 or |
| Chemistry 1110 | Chemistry 2120 |
| Mathematics 1410 or | Neuroscience 2600 |
| Mathematics 1560 or Elective ${ }^{1}$ | One of: English 1900 or |
| GLER course | Writing 1000 |
| GLER course | GLER course |
| Year 2, Fall | Year 2, Spring |
| Biochemistry 2000 or | Chemistry 2600 or One Biology, |
| Chemistry 2500 | Chemistry, Neuroscience, or |
| Biology 2000 | Psychology 3000/4000 level |
| Physics 1000 or Physics 1050 | (Science) |
| Psychology 2320 | Psychology 2030 or |
| GLER course (List 1: Philosophy 1000 | Statistics 1770 |
| recommended) | Psychology 2700 |
|  | GLER course |
|  | GLER course |
| Year 3, Fall | Year 3, Spring |
| Neuroscience 3600 | One of: Philosophy 2220, 2233, |
| One "Three of:" List requirement ${ }^{2}$ | 3270 , or $3402{ }^{3}$ |
| Science elective | One Biology, Chemistry, |
| Elective | Neuroscience, or Psychology |
| Elective | 3000/4000 level (Science) or |
|  | Science elective 3000/4000 level ${ }^{4}$ |
|  | One "Three of:" List requirement ${ }^{2}$ |
|  | Science elective |
|  | Science elective |
| Year 4, Fall | Year 4, Spring |
| One "Three of:" List requirement ${ }^{2}$ | Neuroscience/Psychology 3000/ |
| Neuroscience/Psychology 3000/ | 4000 level (Science) |
| 4000 level (Science) | One of: Neuroscience 4630, 4980, |
| Science elective 3000/4000 level | 4990, or $4995{ }^{5}$ |
| Science elective | Elective 3000/4000 level |
| Elective | Elective |
|  | Elective |

${ }^{1}$ Students choosing group a in requirements 18-22 (p.3) are not specifically required to take Mathematics 1410 or Mathematics 1560. You may choose an Elective here instead. Students choosing group b should complete Mathematics 1410 or Mathematics 1560 in Year One, Fall.
${ }^{2}$ Students require Three of: Biochemistry 2000; Biology 3000, 3105, 3310, 3400; Neuroscience 3625. Semester of offering for these courses may vary. Please check with the Departments of Biological Sciences, Chemistry and Biochemistry, or Neuroscience, respectively.
${ }^{3}$ Semester of offering may vary.
4 Students choosing group a in requirements 18-22 (p. 3) should substitute a 3000/4000level Science elective.
${ }^{5}$ As Neuroscience 4995 is a 6.0 credit course, students should register for it in the Fall.

## Terms Used

GLER course: A course that could count toward the General Liberal Education Requirement. You may use courses in your major towards this 12-course requirement. See the 2011/2012 University of Lethbridge Calendar, Part 4 - Academic Regulations (p. 85) for complete information.

The Faculty of Arts and Science offers Liberal Education 1000 and 2000, specifically designed to introduce first-year students to the wide scope of human knowledge and teach essential university success skills, critical thinking, and integrative thinking (see the 2011/2012 University of Lethbridge Calendar, Part 14 Courses, p. 306). LBED 1000 and 2000 may be used toward satisfying the GLER.

Elective: A course that you may choose freely from all those available and applicable to your program. Use courses inside or outside your major, bearing in mind any restrictions that may apply (e.g., a maximum of 20 courses from any one department).
