

Accessing Cloud Webex for Attendees

If you are invited by email to a Webex Meeting:

1. Open the email and click the link “Join WebEx meeting”

If you have a link to a meeting:

1. Double click the link
2. Enter Your name
3. Type in your email
4. Click “Join”
5. Allow your browser to install Webex

Test Link

Wednesday, February 7, 2018 11:45 am Mountain Standard Time (GMT-07:00) 1 hour ● Started

Host: John Walkey [Add to my calendar](#)

[More information](#)

Your name:

Email address:

[Join by browser](#) **NEW!**

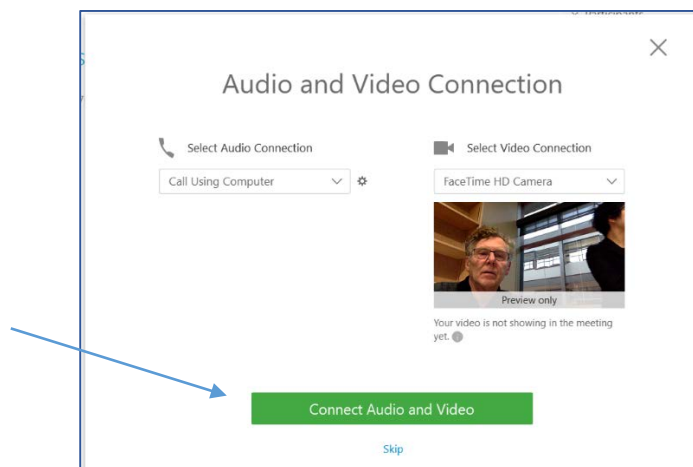

2. This will open your default Browser (Explorer, Chrome, Firefox, etc.)

“If” you see “run a temporary application”, it is the easiest way to run WebEx.

“If not” look for the downloaded file (upper right or lower left depending on your browser).

Run the file to connect.

To Connect audio and video, click the button:

Tips:

- If you desire you can join audio only by using a phone and dialing the number in the email and then entering the 9-digit “Access code”.
- If you are asked to log-in because you joined from a link rather than an email invitation, use any name but you must use a valid email address.
- Web conferencing works best on a wired internet connection.
- Please mute your own microphone so as not to distract from the presenter’s audio.
