

How to...

Plug in your Computer and desk phone to a Wall Mounted Access Point

If you have a wall mount access point in your room that from the front looks like this:

And from the bottom looks like this:

- Ensure that your **computer** is plugged directly into the port labelled **LAN3**, highlighted with a red circle
- Ensure that your **desk phone** is plugged directly into the port labelled **PSE LAN1** on the access point (highlighted with a blue circle) and into the port labeled, either 10 / 100 SW or COMPUTER on the desk phone.
