Sample Sequencing Plan

Students with an academic objective of Engineering at the University of Alberta must apply to the Engineering Transfer Program. The sequencing for the two semesters is as follows:

<table>
<thead>
<tr>
<th>Year 1, Fall</th>
<th>Year 1, Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chemistry 1000</td>
<td></td>
</tr>
<tr>
<td>Computer Science 1620</td>
<td></td>
</tr>
<tr>
<td>Engineering 1100 (1.5 credit hours)</td>
<td></td>
</tr>
<tr>
<td>Engineering 2000</td>
<td></td>
</tr>
<tr>
<td>Mathematics 1565</td>
<td></td>
</tr>
<tr>
<td>Elective</td>
<td></td>
</tr>
<tr>
<td>Chemistry 2000</td>
<td></td>
</tr>
<tr>
<td>Engineering 2100 (1.5 credit hours)</td>
<td></td>
</tr>
<tr>
<td>Engineering 2060</td>
<td></td>
</tr>
<tr>
<td>Mathematics 1410</td>
<td></td>
</tr>
<tr>
<td>Mathematics 2565</td>
<td></td>
</tr>
<tr>
<td>Physics 2130</td>
<td></td>
</tr>
</tbody>
</table>

Admission to the University of Alberta

To be in a position to apply to the Faculty of Engineering at the University of Alberta, students must have completed the following 12 courses at the U of L:

**Required courses:**
- Chemistry 1000 - General Chemistry I
- Chemistry 2000 - General Chemistry II
- Computer Science 1620 - Fundamentals of Programming I
- Engineering 1100 - The Engineering Profession I (1.5 credit hours)
- Engineering 2000 - Engineering Statics
- Engineering 2060 - Engineering Mechanics
- Engineering 2100 - The Engineering Profession II (1.5 credit hours)
- Mathematics 1410 - Elementary Linear Algebra
- Mathematics 1565 - Accelerated Calculus I
- Mathematics 2565 - Accelerated Calculus II
- Physics 2130 - Waves, Optics and Sound

**One of:**
- Anthropology 1000 - The Anthropological Perspective
- Economics 1010 - Introduction to Microeconomics
- Economics 1012 - Introduction to Macroeconomics
- English 1900 - Introduction to Language and Literature
- History 1000 - Western Civilization
- Linguistics 2300 - Introduction to Linguistics I: Phonetics and Phonology
- Philosophy 1000 - Introduction to Philosophy
- Political Science 1000 - Introduction to Political Science
- Psychology 1000 - Basic Concepts of Psychology
- Sociology 1000 - Introduction to Sociology

A minimum GPA of 2.50 is required for admission into the second year of Engineering at the University of Alberta. Students presenting a GPA lower than 2.50 may be offered admission based on available seats. Students are expected to complete the required 12 courses in two successive terms.

**Note:** Students admitted to the Engineering Transfer Program must complete 12 courses as listed above in two consecutive Fall/Spring semesters. If you do not plan to transfer to the University of Alberta after completion of the Spring Semester Year One in the Engineering program, consult an Advisor before the program change deadline of February 15.

You must be in an appropriate UofL degree program in order to register in courses for the following academic year.

The information provided in this Enclosure is updated annually but is subject to change at any time. Students are directed to consult with the University of Alberta for program and application details to ensure compliance with current requirements and deadlines.
B.Sc. - Engineering

Application Information for the Faculty of Engineering:

All of the specialized or discipline specific programs start in the second year and each has a limited number of spaces. On an annual basis the Faculty of Engineering reviews the number of spaces in all disciplines and may change the number of spaces in specific degree programs to reflect student demand and the market demand for these disciplines subject to the availability of Faculty resources. Please note that within that number each Engineering specialization has its own quota, so competition may vary.

Application Information:

<table>

</tbody>
</table>

The Faculty of Engineering offers the following specializations: Chemical, Chemical (Process Control Option), Chemical (Biomedical Option), Civil, Civil (Biomedical Option), Civil (Environmental Option), Computer, Computer (Nanoscale System Design Option), Computer (Software Option), Electrical, Electrical (Biomedical Option), Electrical (Nanoengineering Option), Materials, Materials (Biomedical Option), Materials (Nano and Functional Materials Option), Mechanical, Mechanical (Biomedical Option), Mining, Petroleum, Engineering Physics, and Engineering Physics (Nanoengineering Option).

Engineering students can follow the traditional four-year program, or the five-year Co-operative Education program. The academic component is identical, but the Co-op program includes 20 months of paid discipline-related work experience. Students apply to the Co-op program for second-year entry and must have a GPA of at least 2.30 to qualify.

General Information:

Students should consult the Faculty of Engineering if concerned about:

- The pros and cons of repeating a course
- How ‘D’ grades are treated in the admission GPA
- How Cr/NC and P/F courses are treated
- Applying to Engineering from other degree programs
- Registering in a reduced course load
- Calculation of program admission factor used in the second year admission process

Students who are interested in Engineering at the University of Alberta are urged to consult with Student Program Services (SU060; tel. 403-329-5106; email: artsci.advising@uleth.ca) and with the Engineering Advisor in the Department of Physics. Direct consultation with the University of Alberta is also encouraged.
