## Bachelor of Arts

### Sociology

Sociology is the study of society, including the interaction between individuals, groups, and institutions. Sociological study helps develop original ways of looking at the world and the individual's place within it. By studying sociology, you will gain insight into how people interact with one another and how values and beliefs both shape and are shaped by the structures and processes around us. The primary goal of the discipline is to stimulate sociological thinking — applying imagination and critical analysis to the many facets of social life.
